**RULES OF PLAY:** Each horse listed below has a good chance of winning or finishing second. If two Club horses start in the same race, play both to win and place as well as in exactas and/or quinellas. In addition, consider playing the horse with the higher odds or the one from the most recent issue of the Club. You can select horses to play from up to four Club newsletters at a time, since each newsletter has a "life" of one month. Streamline the number of possible plays at any one track by discarding horses listed in the oldest newsletter in a one-month cycle. It is important to watch for horses listed at one track shipping in and starting at another track.
